Dear Parents and Caregivers,

It is with great pleasure that I congratulate the many children who have maintained a high level of personal behaviour and appropriate diligence in their class work and homework this term. I’m reminded everyday of just how lucky we are to be part of such a friendly and supportive small school with kids that are always striving to not only do their own best, but to also support their friends in achieving their best. It’s the small things that continually perpetuate this in our fantastic school: like seeing some of our talented senior readers working one-on-one with younger students to help them succeed in reading… They are Truly Inspirational, our Clarendon Kids! Thank you, too, to the families who have encouraged their children to do their best and take pride in displaying the personal characteristics of “A Clarendon Kid”. Well Done!

Every Day Counts - Congratulations to all students who achieved more than 95% attendance during Term 3. Certificates will go out on Thursday. Our continued focus to increase attendance has seen a fantastic response, not the least of which is students’ excitement in seeing their attendance ladders grow over the course of the term. Keep up the great work kids, and remember: EVERY SINGLE DAY AT SCHOOL COUNTS!
Free Dress Day on Thursday – a gold coin donation going to the Student Council raising funds to purchase resources for the school. Thank you for your support.

Reading - May I remind parents of the importance of reading to and with your children on a regular basis. Research has shown that children’s motivation and achievement improve when their parents and carers are involved in their education. Literacy is the ability to read, view, design, write, speak and listen in a way that allows us to communicate effectively and to make sense of the world. At Clarendon State School our focus on literacy and numeracy is paramount. Our kids deserve the best start possible... Literacy underpins everything!

Our kids deserve the best possible education they can have!

Until next week.

Dave Noonan
StarLab

The Cosmodome!
The starlab

Earth was a waste land once with
heaps of volcanoes and did you know
Jupiter’s eye has, out of control whether
and Jupiter’s moon in the water there
might be life, all planets rotate west
to east, and on mercury if your 1 your
1, 2 = 8, 3 = 12, 4 = 16, 5 = 20 and so on.

On Mars if it’s summer there’s dust
storms and at winter the whole
planet is ice.

My experience at the starlab was awesome
because I learned new things and
it was fun.
